PROFIT FROM GENETIC PROGRESS

# Quality & Balance

Bulls like **HICKOK** and **BROKEN BOW** have been our top sellers over the last several years. They fit our ideal and based on customer demand, they fit a large portion of the industry.

We are seeing an increasing caution towards chasing extremes and a move in the direction of overall quality and balance especially with our commercial customers. Traits like Docility and Heifer Pregnancy are receiving more attention than ever before.

- ✓ Solid, marketable offspring
- ✓ Type and kind that will build a cow herd and keep you in business
- ✓ Competitive, no holes data
- ✓ Convenience traits in addition to performance

Look for quality and balance bulls like **STELLAR** and **POWERBALL** to move towards the top of our sales list in 2020.

Daughter - Baldco Florabelle Fanny 186,  
Lindsay Pedersen, NE

Daughter - Baldrige Isabel D751,  
Reverse Rocking R Ranch, NM

Daughter - Baldrige Isabel D753,  
Baldrige Brothers Angus, NE

Son - Baldrige Denali D013,  
Baldrige Brothers Angus, NE & J H L Ranch, NE

Find the best in Quality and Balance at ABS.  
Contact your local ABS Representative  
or call 1-800-ABS-STUD today!

**HICKOK**

29AN1965

MILL BAR HICKOK 7242  
Owned by: Mill Bar Angus, NE; Lemar Angus Ranch, SD; ABS Global, Inc., WI

Born: 1/23/2012 AAA 17351674

**QUALITY AND BALANCE AT ITS BEST**

- Proven high customer satisfaction bull that ranked #1 for ABS sales in 2018 and 2019
- Well rounded, maternally oriented bull with super phenotype and calving ease
- Progeny offer a consistent, well balanced type and kind with extra depth of rib and muscle
- Ideal maternal combination coupling a top \$Maternal Index with moderate mature size along with outstanding Heifer Pregnancy and Docility EPDs
- Exceptional maternal genetics with high quality Sexcel semen available

# POWERBALL

29AN2103

## HIT THE MATERNAL JACKPOT

- Powerhouse individual with a great maternal design and data profile
- Used heavily in the Sitz program where the daughters are coveted
- Sons were also the high selling sire group in the Sitz Spring 2018 Bull Sale
- Like his maternal grandsire, POWERBALL possesses all the characteristics of a cow making legend including disciplined mature size, enhanced fertility, low intake and adequate growth
- POWERBALL is a more updated version of HOOVER DAM with more power, capacity and performance

# STELLAR

29AN2025

## STELLAR PERFORMANCE AND DESIGN

- 2017 Sitz Angus Sale topper
- Outstanding maternal pedigree and design with elite \$Maternal and Foot Score values
- Super thick topped and deep sided bull that only improved his power house phenotype while breeding cows as a yearling
- Besides his impressive muscle, the first thing you will notice about STELLAR is his outstanding foot quality and added depth of heel
- His progeny have dominated recent Sitz Angus Ranch Sales including the spring top sire group and the \$165,000 top seller in the fall of 2019

# PATRIARCH

29AN2093

## FAMILY MATTERS

- Record setting bull from the Tehama program and highlight of the fall 2018 sale season
- Admired for his sound structure, foot quality and massive appearance
- Power phenotype bull with top 5% growth that also happens to have a +13 Calving Ease EPD
- Maternal pedigree backed by a program that has relentlessly pursued and been focused on maternal output coupled with end product merit
- His grandsires, HOOVER DAM and Connealy Thunder are both recognized as superior female sires that consistently transmit sound foot structure and excellent teat and udder quality

# CHALLENGER

29AN2040

## A NEW CHALLENGER HAS STEPPED UP

- Performance and style backed by one of the best females in the Angus breed today
- Posted the lowest birth weight and highest weaning performance with the best balance of EPDs in his flush
- His Dam, Isabel Y69 and his granddam have been two of the most prolific and consistent producers in the history of the Baldrige program
- His full sister was the \$320,000 high selling female in the 2017 Spruce Mountain Ranch Sale
- A proven calving ease bull who adds substance, body mass, structure and foot quality

# AUTHORIZE

29AN2059

## BECOME AN AUTHORIZED AND APPROVED USER

- Standout of the 2018 Ellingson Sale combining stellar phenotype, breed leading genetic values and a strong maternal tradition
- His quality and calving ease doesn't come at the expense of performance - offering top 5% \$Weaning and growth genetics
- High performance individual that posted a 77 lb. birth weight and came off of his 2-year-old dam at 955 lbs.
- Dam is a flawless, model Angus female and an absolute favorite in the Ellingson program
- Offers a unique maternally oriented pedigree that can complement almost every popular sire line in the breed today

# HOMEGROWN

29AN2050

## COW MAKER PERSONIFIED

- Pedigree is stacked deep with proven cow maker sires
- His dam, Camilla B276 is off to a highly productive early start and both her grandam W113 and MGGD S232 have achieved pathfinder status
- EPD tabulation gets high marks for calving ease, growth, carcass weight, \$B and elite \$W
- HOMEGROWN should offer more growth and spread than his sire, yet produce the same capacity, fleshing ability and udder quality

# Multi-Trait Excellence

With ABS Pasture to Plate philosophy, we try to keep the total industry in mind by offering bulls that not only meet specific needs but also deliver value throughout the entire beef production chain.

Bulls that are proven to excel from the ranch to the consumer are difficult to come by and offer significant value. These multi-trait performers will position you well for the future.

- ✓ Reasonable Calving Ease
- ✓ Growth and Efficiency
- ✓ End Product Quality & Value
- ✓ Disposition and Soundness
- ✓ Fertility & Convenience Traits
- ✓ Sustainable Mature Size

The new \$Combined index aligns well with the ABS multi-trait approach. In addition to 5 of the top 10 bulls for \$C on the Main Sire Summary list, ABS is also proud to be home to the breed's #1 \$Maternal & #1 \$Beef sires.

<b>#1 \$C</b>	<b>ENHANCE</b>	<b>+359</b>

# STUD

29AN1959

## A STUD ON PAPER AND IN PERSON

- Arguably the best and most complete son of Ten X to date
- His dam is the famous Rita 1559, one of the most impactful cows in the breed
- His progeny are performing at a high level across the country, validating high expectations for calving ease, performance and carcass merit
- Phenotypically attractive, deep ribbed and heavy muscled
- His sons made up the largest portion of the 2017 National Western Champion Carload for Express Ranches

# DUBAS EQUIPMENT

(308) 536-2369

Gene Dubas - Silencer Dealer Since 1993

## Who We Are?

Dubas Equipment LLC Fullerton, NE

Selling what works best since 1993. Gene Dubas purchased his first Silencer squeeze chute because he thought it was the best chute out there. Not just because of its superior build quality, but because of the comfort and safety it provides for his animals. Fast forward 25 years, and you'll find the same to be true. We only sell products that we have used and come to trust on our own cattle. We've sold, delivered, and installed equipment quite literally all around the world.

- 20+ Years as a top dealer for Moly MFG.
- Black and Red Angus Ranchers
- We Attend Trade Shows all over the US All year long, Including Husker Harvest days, NFR, Denver Stock Show, and Dakota Fest
- Proud members and sponsors of the Nebraska Cattlemen's Association

# A CONTINUING DRIVE TO QUALITY

## DEDICATED RESEARCH

ABS has a long history of research, innovation, and quality in semen production. Never satisfied with the status quo, we continually strive to reevaluate and improve our product to enhance quality and customer's experience. Through dedicated research around the factors that influence fertility, we are able to further the quality of our product. Today that research is headed by Dr. Kevin Rozeboom who was hired in 2018 as our Senior Andrology Specialist. Rozeboom has worked to evaluate ABS current production processes and to identify opportunities to further enhance product quality.

"My main objective in my position is to ensure to our customers that semen is not a limiting factor to reproductive performance. In other words conception rate is extremely important to our customer, it's the first thing they experience with our product."

Dr. Kevin Rozeboom,  
ABS Senior Andrology Specialist

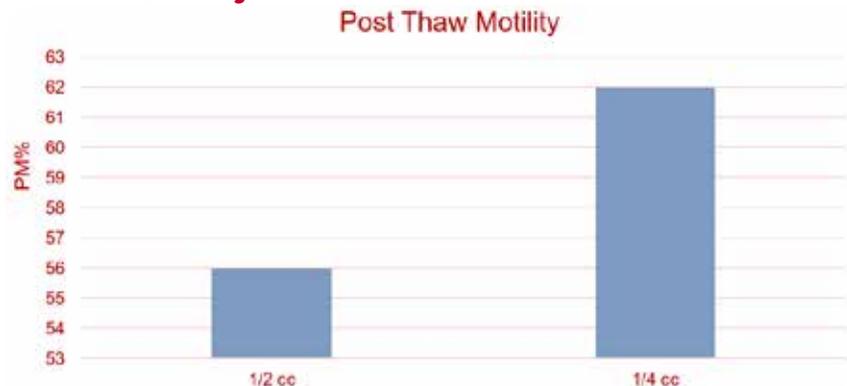

## QUALITY IS THE PRIORITY

There is no question that improvements to the quality of semen that is being used in the field should translate to improved product performance. While there are many factors that influence conception rates, ABS has explored several key areas that influence semen quality:

- ✓ Building new, state of the art facilities with bull comfort and fertility in mind has had a positive impact in overall health, production, and well-being.
- ✓ Recognizing that beef bulls behave and perform differently than dairy bulls, ABS handles the animal's housing and protocols appropriately for each.
- ✓ Optimizing the freezing extenders and freezing conditions that are used for both ABS as well as with our partners at ORigen.
- ✓ ABS was among the first companies to adapt the computer semen analysis process from beginning to the post quality analysis which gives us the most accurate assessment of quality.

### Semen Quality

The comparison of the post thaw motility between 1/2 cc and 1/4 cc was 6 points!

## Data driven results

### SOME OF THE KEY OBJECTIVES IN 2018 WERE:

- 1 RAISE post freezing standards for both dairy and beef sires
- 2 ADAPT ¼ cc straws for the preferred packaging method for most all of our dairy sires.  
This method has benefited our customers average performance:

### 0.5% INCREASE

IN DAIRY CONCEPTION RATES

### 2.6% INCREASE

IN BEEF SIRES USED ON DAIRIES

---

We attribute much of these increases to the SIGNIFICANT IMPROVEMENT that 1/4 cc straws has had on post thaw semen quality.

---

## SIZE MAKES A DIFFERENCE

ASK ABOUT ¼ CC STRAWS FOR ENHANCED FERTILITY

### THE GLOBAL INDUSTRY STANDARD

- ▶ ¼ cc straws are the standard in the dairy industry and in the beef industry outside of the United States
- ▶ ¼ cc straws contain the same number of sperm cells post thaw as ½ cc straws
- ▶ ABS switched to all ¼ cc units for our dairy customers including beef semen used in dairies in 2017

### IMPROVED POST FREEZE MOTILITY

- ▶ The surface to volume ratio of ¼ cc straws allows for better freezing and thawing which consistently improves post freeze motility

### ENHANCED CONCEPTION RATES

- ▶ We have observed an average conception rate increase of 2.6 percentage points after switching our Beef InFocus Beef on Dairy product line from ½ cc to ¼ cc straws
- ▶ Includes only data on the same bulls, used in both package sizes in the same herds
- ▶ Includes over 180,000 observations split nearly evenly between each package size

### ABS IS TRANSITIONING TO BENEFIT OUR CUSTOMERS

- ▶ The majority of ABS' beef bulls will be produced and available in ¼ cc packaging starting in October 2019. Ask your local Representative about availability on your favorite bulls!

# Powerful Phenotype

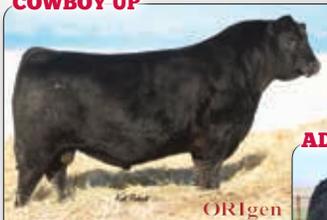

Data drives genetic progress, but having the phenotype to back it up is a winning combination. At ABS, we will not sacrifice genetic merit for good looks, but we do strive to combine documented genetic merit with functional and attractive phenotype.

Bulls like **PAYWEIGHT 1682** and **COWBOY UP** are great examples that produce high satisfaction, easy to own and easy to sell progeny with a great return on investment.

Due to your support and that of our bull owner partners, this marks the 20th time in the last 27 years that a bull marketed by ABS has been the #1 bull in the breed.

# CONSTITUTION

29AN2102

## BUILT ON FUNDAMENTAL PRINCIPLES

- Based on his pedigree, phenotype, EPD profile and the program behind him, CONSTITUTION was a no doubt addition to the ABS lineup
- Powerfully complete son of the type changer and #2 Sire Alliance Maternal Index sire PAYWEIGHT 1682
- His dam is from the Patricia family and is sired by HOMESTEAD who is one of the best in the breed for foot structure, udder quality and overall maternal design
- Posted ratios of 126 weaning and 125 yearling earning him top 1% values to \$W and \$F
- You won't beat this combination for progressive versatility and the fundamental principles of beef production

# Feed Efficiency

Backed by two decades of progeny feed intake data, ABS is the clear industry leader in proven feed efficiency genetics. Feed accounts for the biggest expense in beef production. Improved efficiency continues to be a primary research focus at ABS and a key point of emphasis in our product development and sire selection programs

- ✓ Reduce feed costs
- ✓ Improve efficiency & profitability
- ✓ Get more out of existing resources
- ✓ Lower cow maintenance costs
- ✓ Better stewards of resources

Look to EPDs for Dry Matter Intake (DMI) and Residual Average Daily Gain (RADG) as tools that deserve consideration in your breeding program. We also highly recommend considering bulls with progeny specifically tested for feed intake through programs like our Angus Sire Alliance partnership and Oklahoma State University testing programs.

Contact your local Representative or access the latest from ABS' industry leading efficiency lineup on Bull Search at [absbeef.com](http://absbeef.com).

# Progeny Testing

## OKLAHOMA STATE UNIVERSITY

### LEADING GENETIC IMPROVEMENT

The collaborative genetic discovery project between ABS and OSU is a unique, one of a kind project in the industry. We are able to capture pertinent data from birth to harvest - including birth weight, weaning weight, yearling weight, carcass weight, marbling score, ribeye area, and feed intake.

Once we have this data, the next step becomes measuring maternal metrics that allow us to better determine which sires can make the best contribution to the cow herd. As the US beef industry moves forward, we have a responsibility to provide more effective, efficient, profitable, and sustainable genetics than ever before. The ABS and OSU long term partnership will discover the data necessary to accomplish these goals.

From my perspective, the structured sire evaluation between ABS Global and OSU's Oklahoma Agricultural Experiment Station has been a winner for all involved! OSU has had the opportunity to utilize artificial-insemination, tighten their calving intervals, generate a more uniform calf crop with greater value, and capitalize on some of the finest registered Angus genetics available. This has enabled ABS to prove their young sires quicker, enhancing the accuracy and relevance of their bull battery. The American Angus Association appreciates and highly values this type of collaboration. The quality data generated from these types of partnerships strengthens the entire Angus database.

*Jeff Mafi,  
Regional Manager - KS & OK  
American Angus Association*

# Four Star Calving Ease

Reliability is one of the most valuable things AI can deliver. That is especially true when it comes to calving ease for heifers.

Our four star calving ease bulls are among our most popular and have been time tested in many cases across hundreds of thousands of matings to consistently minimize calving difficulties.

- ✓ Proven, high accuracy sires add reliability and value
- ✓ Reliability doesn't require the most extreme EPD
- ✓ Look to Calving Ease EPDs over Birth Weight for best results
- ✓ Consider bulls with our Four Star rating for their proven customer satisfaction

FUTURE FORCE Paternal sister - YON Witch A277, Rolling B Ranch, GA

# Maternal Design

The ABS Pasture to Plate focus has always started with the cow. When we evaluate bulls for the ABS program, maternal value and the bull's dam, her cow family and the program behind the bull are all key components.

It's about more than just productivity and nursing ratios. From our perspective, maternal design includes foot and udder quality as well as mature size are constant considerations.

- ✓ **Strong Maternal Output**
- ✓ **Moderate Mature Size**
- ✓ **Fleshing Ability & Efficiency**
- ✓ **Soundness and Foot Quality**
- ✓ **Teat and Udder Quality**
- ✓ **Target matings with Sexcel**

The ideal cow varies by production system and herd. We recommend matching cow size to environment and breeding with the long term in mind. Consider utilizing Sexcel product to dial in your replacements out of not only the right bulls but also your best cows.

*For more information on bulls that excel in Maternal Design contact your local ABS Representative or call 1-800-ABS-STUD.*

*Daughter - Hoffman KFL Barbaramere 8519,

# EXPRESS WAY

237AN3476

EXAR EXPRESS WAY 1079B  
Owned by: Express Angus Ranch, OK

Born: 2/3/2019 AAA 19376316

Sire - Conley Express 7211

Dam - EXAR Frontier Gal 3734

Maternal Sister - EXAR Frontier Gal 6997,  
Meah Allison, OK

## TAKE THE EXPRESS WAY TO SUCCESS

- One of the most exciting herd sire prospects ever produced at Express Ranches
- Produced by the National Junior Show Grand Champion female EXAR Frontier Gal 3734 who has already generated \$1.5 million in progeny sales
- Tremendous design - sound structured with a long, powerful neck and front end that is complimented by his depth of rib and stoutness of bone and hip
- Look for him in Denver and check for availability later in the spring

# How Does it Perform?

We have tested and validated Sexcel™ extensively to be confident of its performance. We were able to do this through field trials involving over 12,000 units of Sexcel™, primarily in dairy herds.

Our trials show that Sexcel™ achieves a higher relative conception rate when compared to conventional semen, than other sexed genetic products available on the market. \*

\* Relative conception rate (RCR) measures conception rate of sexed semen compared to conception rate of conventional semen from the same sires. Data is taken from inseminations in dairy heifers with pregnancy checks at 30-90 days. This data does not reflect a head to head trial. Data source: Sexcel data is from a 2016 ABS field trial. Stud A, B, C, D, E data is from customer commercial results 2014-2017 reported through the ABS Real World Data® database for the major bull studs in the AI industry.

Sexcel™ is ABS' new and improved sexed genetics product. It is produced using our own 21st century technology, which is gentler on sperm cells.

Sexcel™ offers ABS' best genetics, to contribute to improved performance in your herd.

*We're leading with our best genetics, look for the Sexcel™ logo on available sires in ABS publications and online.*

**Contact your local ABS Representative or call 1.800.ABS.STUD**

ABS Global, Inc. | 1.608.846.3721 | ABSsexcel.com

# Sexcel<sup>®</sup>

Sexed Genetics

*Fast Forward your Genetic Progress<sup>®</sup>*

## A New Era in Sexed Genetics

- A breakthrough in sexing technology
- Our most advanced genetic line up
- Increased relative conception rate\*

Sexcel<sup>™</sup> sexed genetics, produced using 21st century technology and ABS' best genetics, deliver more, high-value pregnancies in your herd.

\* Source: Sexcel field trial data. Results vary by bull

60/40  
**Synch**

## A Better Way to Make Replacements

- ✓ Combine sexed semen & synchronization to maximize productivity and efficiency
- ✓ Get replacements specifically designed for maternal value from your early calving cows
- ✓ Harness the power of Sexcel to use the best female making bulls available
- ✓ Once replacements are made, you have the flexibility to add more power, pounds and terminal value to your late born calves
- ✓ Add \$50-\$100 per calf with terminal matings
- ✓ 100 unit combination packages available at 60/40 special price levels

All Cows are Synchronized and fitted with Estrotect™ patches

### ALL BULLS AREN'T CREATED EQUAL

## Make Matings with Intent

Herd Type & Objectives	Sexcel Maternally Designed Sires	Conventional AI Matings	Terminal Conventional AI Matings	Maternal Natural Service Sires	Terminal Natural Service Sires
Commercial Replacement Focus	✓	✓		✓	
Commercial Replacement/Terminal	✓		✓		✓
Seedstock Maternal Focus	✓	✓		✓	
Seedstock Maternal & Terminal Line	✓		✓		✓
	~60%		~40%	All	All

**~60%**

Females that display estrus with fully activated patches are time Aled with Sexcel semen from maternally designed bulls

All Cows are exposed to a terminally oriented sire for clean up

## Resulting Calves

ARE APPROXIMATELY

**35%** Maternally Designed  
AI Sired heifer calves to retain

**65%** Terminally Oriented  
Steer & heifer calves to market  
(includes both AI and natural service calves)

Females that do not display estrus are time Aled with conventional semen from terminally oriented bulls

**~40%**

"We conducted a study in 2017 evaluating the use of Sexcel™ gender-skewed semen in conjunction with a fixed time AI protocol. Nearly 900 beef cows and heifers in six different herds were used in this project. Based on our experience, Sexcel™ gender-skewed semen can successfully be used in fixed-time AI protocols among animals that exhibit estrus."

Dr. George Perry,  
South Dakota  
State University

## Sexcel™ Beef Trial at SDSU

Conception Rates	Timed AI	Fully Activated Patch	Partially Activated Patch	Un-activated Patch
Overall		69%	65%	45%
Sexcel	52%	65%	59%	33%
Conventional	67%	73%	72%	56%
Relative	78%	89%	82%	59%

# Simmental

ABS was a charter member of the American Simmental Association, and Simmental remains our second high selling breed today. We strive to deliver a comprehensive offering to serve our seedstock customers as well as providing the best crossbreeding opportunities for our commercial producers.

Our relationship with Allied Genetic Resources brings exciting new options and significant quality to an already strong lineup.

- ✓ **The best in Purebred & SimAngus™**
- ✓ **Balance & multi-trait excellence**
- ✓ **Focus on feed efficiency**
- ✓ **Sensible mature size & birth weights**
- ✓ **Designed for crossbreeding opportunities**

DNA tested DLF, Homozygous Polled

EPDs as of 11/26/2019 **TOP 35%**

Son - Rempe Stabilizer 815E, Berger's Herdmasters LLC, NE

Son - Rempe Stabilizer 2035D, Berger's Herdmasters LLC, NE

Daughter - LCoC Stabilizer CU107, Rempe Farms, NE & Leachman Cattle of Colorado, CO

# PERCEPTION

29SM0484

## THE RIGHT PERSPECTIVE FOR MULTI TRAIT GENETICS

- Moderate framed, dark red, deep sided bull with added muscle
- Offers breed leading calving ease, performance and carcass merit
- Dam is a young donor who will have an impact for C Diamond
- Pedigree adds flexibility for registered and commercial producers
- DNA tested homozygous polled, PB SM

TRAXS RUSHMORE X103 Born: 2/17/2010 ASA 2574812  
Owned by: Kunkel Simmentals, ND; ABS Global, Inc., WI

## ROCK SOLID RED GENETICS

- Unique pedigree of FREEDOM x HOOSIER makes him a great mating for many pedigrees
- High performance, muscle, capacity and power
- Offers excellent calving ease and birth weight with added growth to weaning and big time REA
- The best overall FREEDOM son to surface for moderate birth weight, performance, phenotype and pedigree
- DNA tested homozygous polled, PB SM

CALVING EASE ★★★

# THE VALUE OF time

Artificial Insemination puts you in control of your breeding program. ABS has the sire programs and people to make your breeding program a success.

## HOW MUCH DO YOU VALUE YOUR TIME?

- 01** **Reproduction** is the most profitable thing you can manage in a cowherd
- 02** **Early** calving cows are more profitable
- 03** **Heifers** that calve in the first cycle are proven to stay in the herd longer
- 04** **You cannot** overcome the value of age- early born calves have an unfair advantage

“Your primary goal could be cleaning up the “back of the house” instead of another remodeling effort on the front. A significant amount of growth, in the form of pounds and then dollars, are squandered by late calving cows that cost the same to maintain annually as those that calve early and wean more pounds. Early born calves will tend to have a 60lb -100lb weaning advantage over those tail-enders.”

JARED WAREHAM,  
TOP DOLLAR ANGUS

“Successful beef operations concentrate on calving as many cows within the first 30 days of the calving season. The most powerful tool available for these producers is the use of synchronization coupled with AI.”

DR. CLIFF LAMB,  
TEXAS A&M UNIVERSITY

“Many producers agree, the advantages they get from using Timed AI on day one of the breeding season are similar to their crop acres. The synchronization treatment acts much like starter fertilizer. After years of using timed AI and synchronization many cows already calve in the first 30 days. The synch protocols work to ensure the whole herd stays in the first 30 days and minimizes the number of bulls they have to run.

MERLYN SANDBULTE,  
ABS DISTRICT BUSINESS  
MANAGER

## HOW ABS CAN HELP

- ✓ Convenient breeding by appointment
- ✓ Proven and reliable synchronization protocols
- ✓ Portable AI facilities
- ✓ Predictable, high accuracy genetics
- ✓ Full genetic service from professional Representative

# FINISHED PRODUCT

29AR0276

## BUILDING A MATERNAL PRODUCT

- Total outcross pedigree that combines three legendary Angus sires who were made famous for their ability to make fantastic females
- FINAL PRODUCT, HOOVER DAM and IN FOCUS all in one pedigree and dressed in a red suit
- His famous great granddam Amy B121 comes from the same cow family that you will find in the impressive female maker FUSION's pedigree
- He is attractive patterned, dark cherry red, big soft bodied, sound as a cat and offers the highest spread in our lineup

MILWILLAH MARBLE BAR J53 Born: 9/6/2013 RAAA 3567871 1A  
Owned by: Paringa Livestock Pty LTD, AUST; ABS Australia, AUST

**A NEW BAR HAS BEEN SET**

- He continues to rank in the highest percentile for Australia's Red Angus bulls for all four profit minded index values, while continuing to improve his American Proof. In the ARA data base he ranks in the top 10% of the breed for WW, CW and ME and the top 25% for YW, REA and CEM
- MARBLE BAR's Australian proof shows him to have an untouchable combination of Short Gestation, Growth, Scrotal and Carcass Merit
- Compare to the now-proven Australian sire IRON ORE - shorter gestation, increased performance, larger ribeyes and significantly more marbling
- Customers with MARBLE BAR progeny admire their overall balance and kind along with the incredible growth they display
- MARBLE BAR offers the complete pedigree outcross to fix feet, growth and carcass you have been searching for

Daughter - 3C Mandy 1841, 3C Cattle LLC, MT

## CHECOTAH

29AR0266

JEFFRIES CHECOTAH 817C Born: 1/6/2015 RAAA 1750203 1A  
Owned by: Jefferies Land and Cattle, OK; ABS Global, Inc., WI

## PROUD POWER AND PERFORMANCE

- CHECOTAH is the #1 option for weaning performance in the current ABS lineup - THESE CATTLE GROW
- Outcross pedigree for most all ABS genetics, combines tremendous growth and maternal
- His dam is backed by maternal greats like Mulberry and the prestigious Basin Angus program
- Astute evaluators from Montana to the Southeast and abroad have all raved about the quality and performance that CHECOTAH progeny exhibit

CHECOTAH as a yearling

# Hereford

The ABS Hereford lineup is designed with the baldy cow in mind. We look for the same strengths that we have in our other breed offerings with a decided emphasis on maternal traits and calving ease.

Our Sexcel product line is a great tool to target baldy female production on either cows or heifers.

- ✓ **Calving Ease**
- ✓ **Maternal Design**
- ✓ **Functional Phenotype**
- ✓ **Performance**
- ✓ **Carcass Merit**
- ✓ **Ideal Sexcel product**

Hereford lineup including current Sexcel availability.

# DOMINO 1109

29HH0843

PYRAMID 3027 DOMINO 1109

Born: 3/2/11 AHA 43185506

Owned by: Thorstenson Hereford Ranch, SD; ABS Global, Inc., WI

## ELITE CALVING EASE, MATERNAL AND PHENOTYPE

- Calving ease and maternal genetics from his legendary sire, DOMINO 3027 with added growth and performance
- His dam has established herself as one of the most impressive and productive donors in the Hereford breed today
- Progeny are incredibly consistent - good patterned, deep bodied, and the daughters are exactly what you expect
- An opportunity to take a progressive next step with this Horned Hereford sire

**ARMSTRONG**

29GV0085

**TIME FOR LIFT OFF**

- High carcass merit sire with strong beef bull phenotype, dominated his contemporaries both from a growth and ultrasound standpoint
- His dam 7309T is a true 'Carcass Cow' with a stellar record as a donor
- ARMSTRONG is impeccable from a foot and structure standpoint with added body and stoutness
- Note that the pedigree of ARMSTRONG's dam 7309T has recently been changed by the American Gelbvieh Association. This makes 7309T a Balancer and changes ARMSTRONG's %Gelbvieh to PC75
- DNA tested homozygous black, homozygous polled

29CH0222

JMAR BENIAIAH 1E66 Born: 2/13/16 AICA EM879759  
Owned by: J-Mar Genetics, VA; ABS Global, Inc., WI

## ONE OF A KIND, RARE, UNIQUE

- Standing in the donor pen at JMAR, his dam is one of the best Free Lunch daughters in the business
- He brings to the table breed average BW coupled with top 5% growth and CW, he posts a big REA and has an off the charts top 1% MARB EPD
- BENIAIAH is super long spined and good structured, he stands on a good foot and moves out well
- The unique pedigree with outstanding growth and carcass merit sire that breeders have been searching for
- DNA tested homozygous polled

**ESTROTECT™**  
BREEDING INDICATOR

# BREEDING SUCCESS

## THE WORLD'S LEADING BREEDING MANAGEMENT INDICATOR NOW FEATURING THE BREEDING BULLSEYE!

The NEW ESTROTECT™ Breeding Indicator featuring patent pending Breeding Bullseye™ technology makes it easier than ever to identify cows that are in heat, pinpoint timing for AI and Timed AI protocols, as well as confirm successful pregnancies.

According to third-party research, when the new ESTROTECT™ Breeding Bullseye™ is rubbed off by mounting activity, cows are up to three times more likely to conceive. Not only does ESTROTECT™ with the Breeding Bullseye™ indicate when a cow is in heat, it tells you exactly when the animal should be bred to achieve optimal results.

To learn more about the new and improved ESTROTECT™ featuring the Breeding Bullseye™, visit [www.ESTROTECT.com](http://www.ESTROTECT.com)!

**SEMEN QUALITY**

and sire health standards have always been a primary focus at ABS to insure that our product consistently delivers the best results and bio-security possible.

ABS has always been a leader in semen quality having assisted in the development of many of the techniques and protocols that are widely used in the industry today. More than 60 years of research have allowed ABS to develop processes and standards for semen production and processing that exceed industry norms.

In addition, to protect the health and well being of the ABS bull population and provide our customers with the highest level of bio-security possible, ABS' sire health standards exceed CSS minimum requirements. The vast majority of the beef semen marketed by ABS meets these stringent health and semen quality requirements and is classified as ABS normal PRIME quality.

If requested, other quality levels may be available on certain bulls including...

CHOICE quality product of outsourced and certain high demand sires produced at ABS. This semen may not fully meet ABS' normal PRIME semen quality standards but is within industry normal ranges and is fully CSS health qualified.

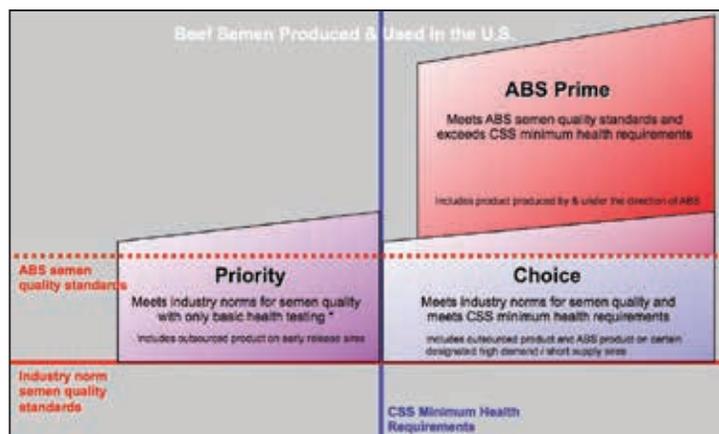

PRIORITY semen will be available on a request only basis on certain early release bulls. Like much of the custom collection semen used in the U.S., this product has not had full health testing to meet CSS minimum standards. It is designed for producers that are interested in getting the earliest possible semen from high demand sires.

**SEMEN QUALITY**

- Influences fertility and conception rates achieved
- Determined by the processes employed and standards used in evaluating accepted semen including semen morphology & motility
- **ABS utilizes processes and standards for semen production and evaluation that exceed industry norms**

**HEALTH REQUIREMENTS**

- Designed to protect the health of the herd in which semen is used by minimizing the risk of disease transmission
- CSS Certified Semen meets Certified Semen Services minimum requirements for disease control of Semen Produced for AI
- **All Prime and Choice semen marketed by ABS exceeds CSS minimum requirements**

**SEMEN SIRE HEALTH REQUIREMENTS**

\*Priority bulls have basic health testing for the diseases monitored by CSS but have not yet been subjected to the multiple tests or full quarantine required for CSS Certification

**Warranty Disclaimer**

Since ABS Global (hereinafter called ABS) does not control conditions under which its product is employed and notwithstanding the fact that customers of ABS have had a high degree of success in their employment of its products and techniques, neither ABS nor its agents or employees give any warranty, express or implied, as to the description, quality or productiveness or the results which may be obtained by the use of any products sold, or in connection with any techniques recommended, and ABS expressly disclaims any responsibility of any kind with respect to the use of its products or the employment of its techniques. ABS warrants that it has good title to the products sold. ABS MAKES NO OTHER WARRANTY OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, AND ALL WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED.

**Liability Disclaimer**

ABS, its agents or employees shall not be responsible for any injury or damage caused through the negligent use or handling of its products, or for any damages or loss due to any defects in the containers used in connection therewith. ABS', its agents' or employees' entire liability on any claim, whether in negligence or any other tort or for breach of contract or otherwise, with respect to products delivered hereunder, shall not exceed the purchase price of the products sold that actually caused the damage or, if ABS shall so elect, Buyer shall be entitled only to replacement of product. In no event shall ABS be liable for Buyer's incidental or consequential damages or lost profits.

**ABS Sexation Disclaimer**

Artificial insemination straws of ABS Sexation semen are for single use insemination of heifers only. Not for re-sale. ABS Sexation semen is produced using the proprietary technology of XY, Inc. U.S. Patent Nos. 5,135,759; 6,372,422; 7,094,527; 7,208,265. Patents Pending. XY® is a trademark of XY, Inc.

# TERMS AND CONDITIONS

These terms and conditions (the “Terms”) govern: (a) the purchase, sale and use of all bovine related products and services offered by ABS Global, Inc. or its affiliates (“ABS”), including without limitation: bovines, semen, and embryos (“Germplasm”); udder care products; breeding certificates; artificial insemination, ovum-pick up, embryo transfer, in-vivo fertilization, pregnancy checks, or any related breeding or veterinary services (“Breeding Services”); genetic management services, laboratory services, and related equipment or supplies (all of clause (a) collectively, the “Products”), and (b) any license to use the genetic materials contained in or derived from the Germplasm (in whole or in part) or its progeny, including any DNA, RNA, protein or other molecular or hereditary materials (“Genetic Materials”). Please read these Terms carefully, as your use or purchase, or your employees’ or representatives’ use or purchase on your behalf (collectively or individually, “you”), of ABS Products constitutes your confirmation and agreement to be bound by these Terms. ABS reserves the right to make changes to these Terms from time to time.

**PURCHASE & SHIPPING.** By placing an order for Products you confirm that you are authorized to make the purchase. All orders are subject to acceptance by ABS and availability at time of shipment. All sales are final, cannot be canceled, and are non-refundable unless otherwise noted in these Terms. Upon receipt, you shall inspect the Products to confirm that they are as ordered. You must notify ABS of any loss, damage, or error as to Product type or quantity (“Nonconforming Products”) within 7 days of delivery, or in the case of loss of Germplasm due to a shipping tank failure, within 24 hours of delivery, and ABS will replace or refund in accordance with the warranty described below. Customer shall return or destroy all Nonconforming Products as instructed by ABS. Payment terms are as listed in statement/invoice. You shall provide ABS with any information or documentation necessary for ABS to invoice you the amount due to ABS. ABS may audit your records no more than annually to confirm any information provided to ABS under this section. Payment of sales tax is your responsibility and shall be applied to orders in accordance with all applicable tax laws. All Products ship Incoterms 2010 CPT (first carrier) to the invoice location, unless otherwise stated by ABS. Except with respect to the Genetic Materials, title to the Products will pass to the customer at first carrier.

**USE.** ABS Products are approved for animal agriculture use only. Your purchase of Germplasm is subject to a non-exclusive, non-transferable, non-sublicensable, limited, revocable license to use the Genetic Materials subject to the following restrictions: Germplasm may only be used in animals owned or leased by you with the intent to produce offspring for use in a beef or dairy operation. Sexed semen may be used solely for single artificial insemination of a single bovine, with the intent to produce a single offspring. You may not export Products, sell or transfer Products to any third-party, or use or analyze Germplasm for the benefit of any third-party, without the prior written consent of ABS. All rights in the Genetic Material not expressly granted hereunder are reserved by ABS. All other uses of the Germplasm are strictly prohibited without the prior written consent of ABS, including (without limitation) genotyping, sequencing, cloning, reverse sorting, genome editing, genetic analysis or manipulation, use in public or private research programs, production of animals for the purpose of collecting and selling their semen, or for any other research or development use. Your purchase, receipt, or use of Germplasm from those bulls identified as Icon Sires™ is subject to the additional terms and conditions listed on the ABS Icon Sires website. NuEra™ Germplasm may only be used to create a terminal crossbred offspring and any offspring derived from NuEra Germplasm shall only be sold or otherwise transferred into the beef supply chain (e.g. sale to a slaughterhouse or feed yard) for the purpose of slaughter, unless otherwise permitted by ABS in writing.

**BREEDING SERVICES.** If you purchase Breeding Services from ABS, you are responsible, at your own cost, for preparing animals in accordance with ABS’s instructions. Additional fees may apply if animals are not properly prepared. You remain responsible for any Products not used during the Breeding Services, including without limitation, the disposition of fresh embryos. For any Breeding Services charged by pregnancy, pregnancy shall mean a positive pregnancy check (ultrasound or non-return) between 30 and 45 days post breeding, unless otherwise agreed by ABS. ABS may provide certain services through a subcontractor.

**WARRANTIES AND LIABILITY.** ABS warrants that the Germplasm conforms to the description on the individual straw or ampule it is packaged in. Except as otherwise set out in these Terms, all Products provided by ABS are sold “AS IS”. ABS SPECIFICALLY GIVES NO WARRANTY OF MERCHANTABILITY, HEALTH, OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT AS SPECIFICALLY STATED IN THESE TERMS AND TO THE EXTENT ALLOWABLE BY LAW, ALL OTHER WARRANTIES ARE DISCLAIMED. ABS specifically disclaims any warranty of (a) the genetic make-up of the Product; (b) the performance of the Product, or the characteristics or performance of the offspring of the Product; and (c) the absence of pathogens from the Product. The warranty described above is contingent upon the proper use by you of the Products in line with industry standards and in compliance with these Terms and does not cover any Products which have been modified in any manner or subject to abuse, neglect, misuse or alteration. If a Product offered by ABS itself is not as described under such warranty, your sole remedy is to return it in unused condition and a credit up to the purchase price of the Product will be issued to your account. ABS attempts to be as accurate as possible in its Product descriptions. ABS does not warrant that Product descriptions, marketing materials, website content, or other information related to the Products is accurate, complete, reliable, current, or error-free.

**LIABILITY DISCLAIMER: ABS, ITS AFFILIATES, AND EACH OF THEIR EMPLOYEES, OFFICERS, DIRECTORS, AND DISTRIBUTORS (“ABS PARTIES”) ENTIRE LIABILITY ON ANY CLAIM ARISING FROM OR RELATED TO THE PRODUCTS (WHETHER FROM BREACH OF WARRANTY, CONTRACT, TORT, STRICT LIABILITY, NEGLIGENCE, OR FIDUCIARY DUTY) SHALL NOT EXCEED THE PURCHASE PRICE PAID TO ABS FOR THE PRODUCTS THAT ALLEGEDLY CAUSED THE LOSS, OR IF ABS**

**SO ELECTS, REPLACEMENT OF THE PRODUCT. IN NO EVENT SHALL ANY ABS PARTY BE LIABLE FOR INCIDENTAL, PUNITIVE, EXEMPLARY, CONSEQUENTIAL, OR MULTIPLIED DAMAGES OR LOST PROFITS SUSTAINED BY YOU OR ANY OTHER PERSON, OR FOR ANY FAILURE OF COWS TO CALVE. YOU AGREE NOT TO ASSERT ANY NON-CONTRACTUAL CLAIM ARISING UNDER STATE LAW ARISING FROM OR RELATED TO YOUR PURCHASE OR USE OF ANY PRODUCT. HAVING THE EXPERTISE AND KNOWLEDGE IN THE INTENDED USE AND CARE OF THE PRODUCTS, YOU ASSUME ALL RISK AND LIABILITY ARISING FROM OR RELATED TO YOUR USE, HANDLING, OR STORAGE OF THE PRODUCTS OR RELATED TO DEFECTS IN ANY STORAGE CONTAINERS OR TANKS CONTAINING PRODUCTS.**

**Liquid Nitrogen Notice** - You shall transfer all Germplasm from shipping tanks to your own nitrogen tanks immediately upon receipt. You are responsible for providing and maintaining liquid nitrogen tanks, including nitrogen levels and tank operation at all times. ABS may provide liquid nitrogen services to customers as an ancillary service. Such services are provided on an “AS IS” and “AS AVAILABLE” basis. Without limiting the foregoing, the ABS Parties shall not be responsible for any loss and/or damages, direct or indirect, arising out of contract, tort, or fiduciary duty by providing liquid nitrogen to you. To the extent allowable by law, all liability for the supply, maintenance, or servicing of liquid nitrogen storage tanks is expressly disclaimed by ABS Parties.

**DISTRIBUTORS.** ABS contracts with independent contractors, sales agents, authorized representatives, or other distributors (“Distributors”) from whom you may purchase Products directly. Distributors are not the agents, employees, or servants of ABS and are not authorized to contract for, or on behalf of, ABS. Because ABS does not control the Products after transfer to a Distributor, ABS disclaims all liability for the Products, services, actions, or work provided to you by Distributors.

**INDEMNITY.** You agree to defend, indemnify and hold all ABS Parties harmless from any and all claims, liabilities, damages, costs and expenses, including reasonable attorneys’ fees, in any way arising from, related to or in connection with (a) your use of ABS Products; (b) your breach or alleged breach of these Terms; (c) your violation of any third-party right, including any intellectual property right, publicity, confidentiality, property or privacy right; (d) your violation of any laws, rules, regulations, codes, statutes, ordinances or orders of any governmental and quasi-governmental authorities, including all regulatory, administrative and legislative authorities; and (e) any misrepresentation made by you.

**TRADEMARKS.** Trademarks, logos and service marks displayed on ABS materials, Products, websites, or elsewhere as authorized by ABS are registered and unregistered trademarks of ABS (“ABS Marks”). No license or right to use any ABS Mark is granted by these Terms. Use of the ABS Marks by you is prohibited.

**DATA & SOFTWARE.** Some Products allow you to download ABS owned or licensed software (“Software”) onto your computer or device, which may update automatically. ABS grants you a limited, non-exclusive, non-transferable, non-sublicensable, revocable license to use the Software, solely in connection with the Products. To the extent any component of the Software is offered under a third-party sub-license, you must use that Software in compliance with the terms and policies of the third-party supplier, in addition to these Terms. Unless the following restrictions are prohibited by law, you agree not to reverse engineer or decompile the Software or Products, attempt to do so, or assist anyone in doing so. As part of ABS’s effort to continually improve its Product offerings, ABS employees or Distributors may collect data or information, including herd performance data, from your technology systems (“Data”). By permitting ABS employees or Distributors to access your Data, you grant ABS a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide license to use the Data for ABS business purposes. ABS understands that maintaining anonymity of your Data is important to your business operations, and will not use your Data in a way that discloses your individual identifying information to the public. Any data, reports, information or intellectual property created, generated or discovered by ABS from the Data (individually or in aggregate) is the sole property of ABS, and no ownership rights in such data, reports, information or intellectual property shall transfer to you or any third-party.

**COMPLIANCE WITH LAWS.** You agree to comply with all applicable laws, rules, regulations, codes, statutes, ordinances or orders of any governmental and quasi-governmental authorities, including all regulatory, administrative and legislative authorities, including without limitation any anti-corruption and bribery law, policy or regulation, in connection with your purchase or use of the Products and in your dealings with ABS.

**GOVERNING LAW.** These Terms are governed by and construed in accordance with the laws of the State of Wisconsin, USA without giving effect to any principles of conflicts of law. You irrevocably submit to the exclusive jurisdiction of the courts of Wisconsin, USA over any claim or matter arising out of or related to these Terms or your purchase or use of Products.

**ENTIRE AGREEMENT & INTERPRETATION.** These Terms constitute the entire agreement between you and ABS, and supersede and replace any agreement, terms and conditions, or your purchase order or other ordering document related to the Products, except to the extent that such agreement is in writing, signed by both you and ABS (“Written Contract”). To the extent that the terms of a Written Contract conflict with these Terms, the terms of the Written Contract shall prevail. In the event these Terms differ from terms and conditions on ABS printed forms, these Terms shall prevail. In these Terms, the word “including” shall be deemed to be followed by the words “without limitation.” **WAIVER, SEVERABILITY & ASSIGNMENT.** ABS’s failure to enforce any provision of the Terms is not a waiver of its right to do so later. If a provision is found unenforceable or invalid for any reason, the remaining provisions of the Terms will remain in full force and effect. You may not assign any of your rights under these Terms, and any such attempt shall be void. ABS may assign its rights to any of its affiliates or subsidiaries, or to any successor in interest of any business associated with ABS. **MODIFICATION.** ABS may revise these Terms from time to time, and will post the most current version on our website. You are bound by any revision and should review these Terms periodically. If any provision of these Terms is deemed invalid, void, or unenforceable for any reason, that provision shall be severed and shall not affect the validity or enforceability of any remaining provision, and the parties shall substitute for the invalid provision a provision that most closely approximates the intent and economic effect of the invalid provision.

# BEEF COW PROTOCOLS - 2020

## HEAT DETECTION

### Select Synch

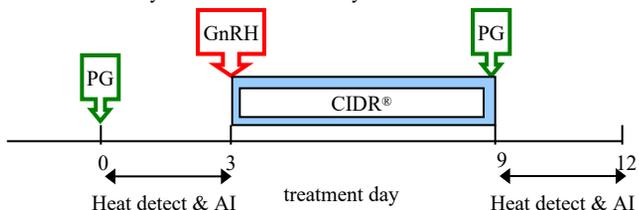

### Select Synch + CIDR®

### PG 6-day CIDR®

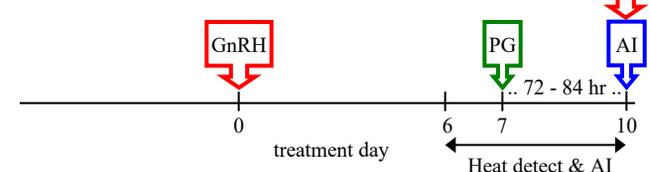

Heat detect and AI days 0 to 3. Administer CIDR to non-responders and heat detect and AI days 9 to 12. Protocol may be used in heifers.

## HEAT DETECT & TIME AI (TAI)

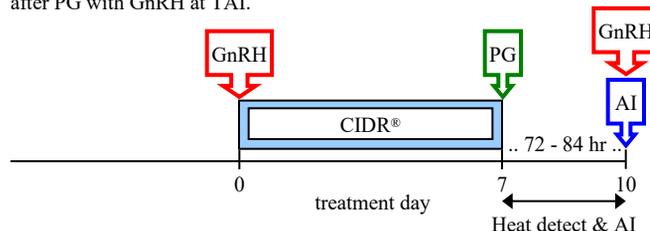

### Select Synch & TAI

Heat detect and AI day 6 to 10 and TAI all non-responders 72 - 84 hr after PG with GnRH at TAI.

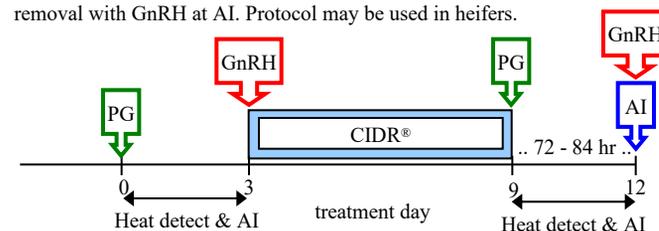

### Select Synch + CIDR® & TAI

Heat detect and AI day 7 to 10 and TAI all non-responders 72 - 84 hr after PG with GnRH at TAI.

### PG 6-day CIDR® & TAI

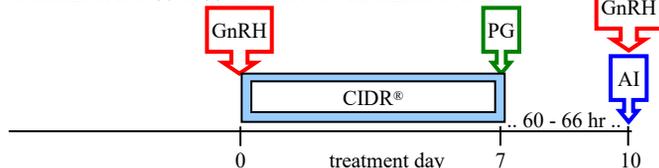

Heat detect & AI days 0 to 3. Administer CIDR to non-responders & heat detect and AI days 9 to 12. TAI non-responders 72 - 84 hr after CIDR removal with GnRH at AI. Protocol may be used in heifers.

## FIXED-TIME AI (TAI)\*

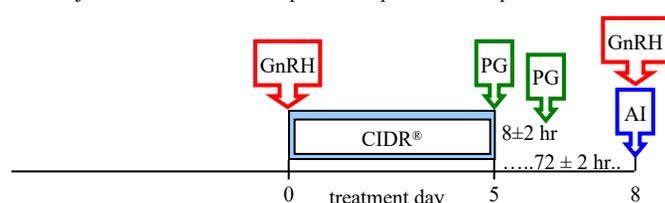

### 7-day CO-Synch + CIDR®

Perform TAI at 60 to 66 hr after PG with GnRH at TAI.

### 5-day CO-Synch + CIDR®

Perform TAI at 72 ± 2 hr after CIDR removal with GnRH at TAI. Two injections of PG 8 ± 2 hr apart are required for this protocol.

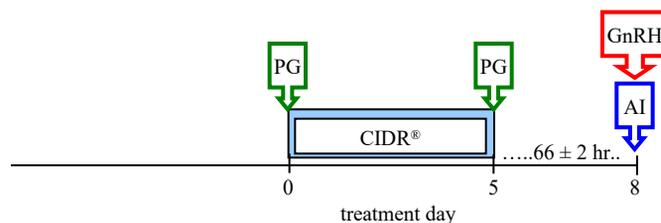

## FIXED-TIME AI (TAI)\*

for *Bos Indicus* cows only

### Bos Indicus PG 5-day + CIDR®

Perform TAI at 66 ± 2 hr after CIDR removal with GnRH at TAI.

\* The time listed for "Fixed-time AI" should be considered as the approximate average time of insemination. This should be based on the number of cows to inseminate, labor, and facilities.

These protocol sheets were assembled by the **Beef Reproduction Task Force**. Programs are intended to promote sustainable food production systems by the beef industry through sound reproductive management practices for replacement heifers and postpartum cows. The Beef Reproduction Task Force recommends working with a licensed veterinarian for proper use and application of all reproductive hormones. **Approved 8-19-2019**

Cystorelin®, Factrel®, Fertagyl®, OvaCyst®, GONABreed®

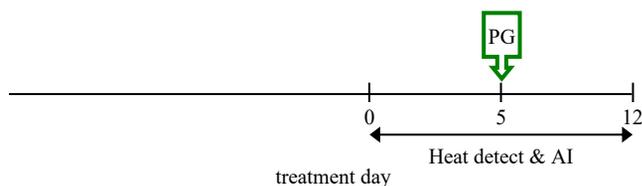

estroPLAN®, Estrumate®, In-Synch®, Lutalyse®, Lutalyse® HighCon, ProstaMate®, SYNCHSURE™

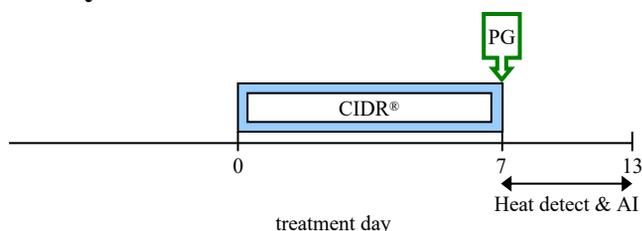

# BEEF HEIFER PROTOCOLS - 2020

## HEAT DETECTION

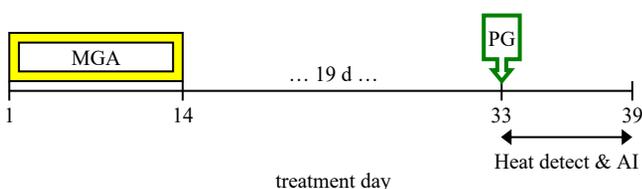

### 1 Shot PG

### 7-day CIDR®-PG

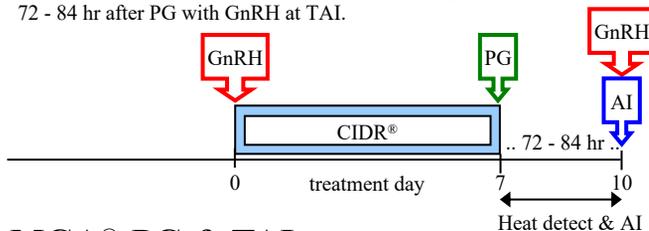

### MGA®-PG

## HEAT DETECT & TIME AI (TAI)

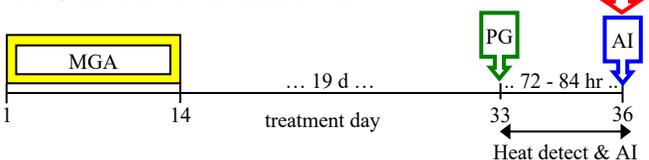

### Select Synch + CIDR® & TAI

Heat detect and AI day 7 to 10 and TAI all non-responders 72 - 84 hr after PG with GnRH at TAI.

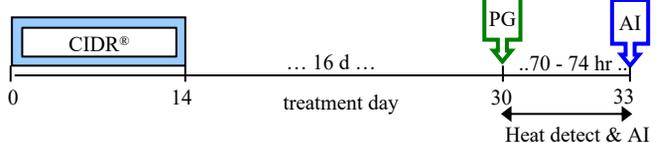

### MGA®-PG & TAI

Heat detect and AI day 33 to 36 and TAI all non-responders 72 - 84 hrs after PG with GnRH at TAI.

### 14-day CIDR®-PG & TAI

Heat detect and AI day 30 to 33 and TAI all non-responders 72 hrs after PG with GnRH at TAI.

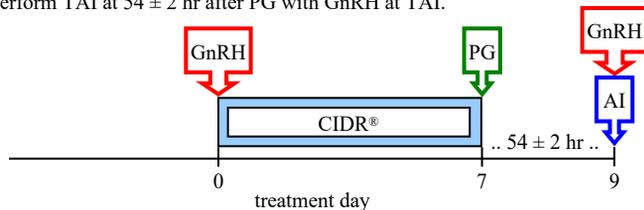

## FIXED-TIME AI (TAI)\*

### Short-term Protocols

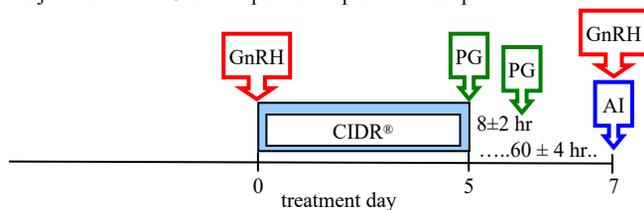

#### 7-day CO-Synch + CIDR®

Perform TAI at  $54 \pm 2$  hr after PG with GnRH at TAI.

#### 5-day CO-Synch + CIDR®

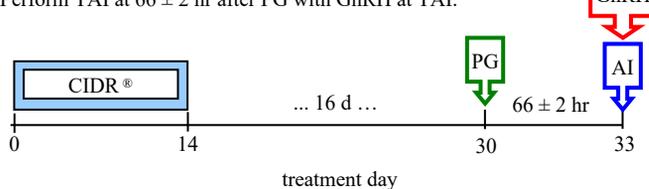

Perform TAI at  $60 \pm 4$  hr after CIDR removal with GnRH at TAI. Two injections of PG  $8 \pm 2$  hr apart are required for this protocol.

### Long-term Protocols

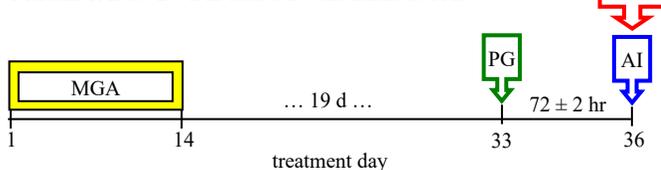

#### 14-day CIDR®-PG

Perform TAI at  $66 \pm 2$  hr after PG with GnRH at TAI.

#### MGA®-PG

Perform TAI at  $72 \pm 2$  hr after PG with GnRH at TAI.

\* The times listed for "Fixed-time AI" should be considered as the approximate average time of insemination. This should be based on the number of heifers to inseminate, labor, and facilities.

These protocol sheets were assembled by the *Beef Reproduction Task Force*. Programs are intended to promote sustainable food production systems by the beef industry through sound reproductive management practices for use in replacement heifers and postpartum cows. The Beef Reproduction Task Force recommends working with a licensed veterinarian for proper use and application of all reproductive hormones. **Approved 8-19-2019.**

# MVE Storage Solutions

**MVE tanks feature a classic style lid assembly  
and welded handle design with  
performance innovations of tomorrow!**

- Classic Style Lid Assembly (Hinge, Flip-Top)
- Color Coded Canister/Lid Numbering System
- Locking Tab
- Superior Strength, Lightweight Aluminum Construction
- High Strength Neck Tube Reduces Liquid Nitrogen Loss
- Advanced Chemical Vacuum Retention System Designed For Superior Vacuum Performance Over The Life Of The Product
- Spider Design for Easy Retrieval and Insertion of Product Canisters
- MVE's Advanced Insulation System Provides Maximum Thermal Performance
- Five Year Vacuum Warranty
