Spread Your Genetic Wings

- Powerful Triangle J sale topper with incredible rib dimension
- Big birth to yearling spread with outstanding docility and marbling combined with elite profit indexes
- DNA tested homozygous black, homozygous polled, pure breed Simmental
- First calves in Australia are calving beautifully, unassisted with plenty of vigour
- US inspection- Gold impressed us greatly with his extremely placid nature
- Gold is powerful, stout, deep and exceptionally well made from any angle. He particularly impresses with huge loin and top line strength and width, with so much fill through the twist and around the hams
- Use Gold to moderate taller, plainer females down a fraction and to add a serious amount of punch
- It is truly rare to find a bull of such physical dimension yet expressing such impressive calving and birthweight data
