- Finally! Back by popular demand is this man amongst boys!
- Combines tremendous base width and muscle with exceptional substance, rib shape and length of body
- Described by many astute breeders as the most powerful Angus bull they've seen in recent years, and we still agree even upon recent inspection
- Unique data and imposing phenotype make for as stout a power bull package as we know how to make
- Several breeders around Australia have described the Man In Blacks as the heaviest weaned calves they have ever bred
- Take a look at his ever-improving data set with bigtime growth all in the top 1% of the breed!
- Structurally, Man In Black is a sound footed, well made sire with added frame and power, and his slick coat makes him absolutely ideal for any Northern Angus or Ultra-Black programs
- 2025 inspection – wow, still so much power and mass in this Angus powerhouse even as a rising 6yo sire – it is not hard to see why his progeny are so powerful, thick and stylish!
