Modern Day Maternal Performance

- A natural next step in mating daughters of RESILIENT, INCENTIVE or STELLAR
- Ideal maternal option with spread, power, performance and still rings the bell for Marbling and EMA
- His mother is the kind of cow producers describe when they speak to the ideals of size, function, udder and design
- Super docile, super footed bull with a great deal of middle mass and thickness. He is designed to make the kind of replacement females that last in your herd!
- High CED and low BW makes him the ideal heifer mating candidate
- Appreciate the solid growth, scrotal and EMA combination Heritage offers
- Heritage was a bull who stood out on the 2025 US tour, exhibiting heaps of raw power and presence
- He is well refined through the front, with good top-line strength and red meat packed along the spine, down through his flanks and hams
- Good-footed and well-natured individual with big testicles and would be ideally used to tighten sheaths given how clean he is through the under carriage
