Born	03/03/2023
Birth Weight	35kg
Weaning Weight	331kg
Yearling Weight	553kg
SS 12 months	36cm

Basin Hobo 0545
Tac Drifter H10
 Tac Ms Verna F66 ET

Beiber Make Mimi 7249
Feddes Sympathy A42-D82
 Feddes Sympathy A42

Outcross with Performance

- Eastwood was the high selling bull in Feddes 2024 sale
- Eastwood ticks all the boxes for low birth weight, adds muscle, marbling, body, dimension, softness, structure & maternal traits
- Reports from the US – Breeders like the performance and muscle. Heifers are very stylish; attractive and long sided
- The Dam is a tick more moderate and a very tightly udded cow with good teat size that has performed well in the Feddes herd.
- Yearling progeny and weaned progeny have been really well received from a performance standpoint, they are long bodied cattle, Eastwood seems to be really good at adding some substance and bone with some added frame.
- Outcross pedigree that can be used on most heifers and cows alike
- With Drifter breeding some of the best heifers we expect Eastwood will make his mark
- Top 1% for marbling, with his stay ability at top 2% with both his sire and dam at top 1% of the breed
