Feddes Sympathy A42

Outcross with Performance

- Eastwood was the high selling bull in Feddes 2024 sale
- Impressive phenotype Eastwood adds muscle, body, structure with maternal traits
- Reports from the US – Breeders like the performance and muscle. Heifers are very stylish; attractive and long sided
- The Dam is a tick more moderate and a very tightly uddered cow with good teat size that has performed well in the Feddes herd.
- Yearling progeny and weaned progeny have been really well received from a performance standpoint, they are long bodied cattle, Eastwood seems to be really good at adding some substance and bone with some added frame.
- Outcross pedigree that can be used on most heifers and cows alike
- With Drifter breeding some of the best heifers we expect Eastwood will make his mark
