## REMBRANDT

Rembrandt R48 is a work of art from any angle, **secured for \$240,000** at the 2021 Millah Murrah on property sale.

A prototype for the **modern Angus** animal, displaying vast **dimension, softness of skin, length and a top line** filled with natural red meat from front to back and down through the hams.

Structurally he has a **balanced and supple gait, combined with leg and foot structure** to die for, and perfect design of the reproductive anatomy. Throw in a beautiful disposition, with a true sire's head and outlook and Rembrandt really does strike as a genetic work of art for the ages.

## ROCKET MAN

Rocket Man R38 is the **\$280,000 Australian record priced** Angus sire from the world record averaging 2021 Millah Murrah sale. Considered a step up from his famous sire by many who saw him, Rocket Man was the headline act of the spring bull season across Australia.

Phenotypically, Rocket Man inspires awe. He is **structurally outstanding** and a gentleman to handle.

**A bull so wide and correct** from his muzzle, over the chine and all the way through to his hips and pins, it is difficult to fault him from any angle.

Possessing so much sheer volume, capacity, and sire appeal, Rocket Man combines all the best traits of his sire and maternal grandsire, Paratrooper & Capitalist.

# FOREWORD

Welcome to the 2022-23 ABS Australia Beef Sire Directory. We are delighted to present to you a wide selection of leading domestic and international sires covering a wide variety of breeds. We would like to take this opportunity to thank our valued clients and friends from around Australia for their support throughout the past 12 months. According to the current National Herd Improvement Agency (NHIA) Survey, ABS Australia Beef is ranked #1 for overall beef sales. Again, we thank all breeders for their continued support for all that we do here at ABS.

This year represents a changing of the guard, with Fletch Kelly taking the reins as Beef Product Manager for Australia and NZ alongside fellow ABS Beef team members Annie Pumpa and Kim Hodder. We are delighted that Bill Cornell is remaining at ABS in a number of capacities including WA Sales and Wagyu Sales & Product Development. We acknowledge the enormous contribution that Bill has made to the domestic and international beef AI industries.

At ABS our core philosophy is People, Product and Programs, and our mission statement is Profit from Genetic Progress. We have a variety of programs to assist breeders to become more profitable including Sexcel<sup>®</sup>, HCR, NuEra<sup>™</sup>, Double K and Commercial semen usage agreements.

ABS continues to research and implement programs for cattle breeders. We have a great passion for fixed time AI (FTAI) and articles of interest are found on pages 60 & 61 of this directory. We know that pregnancy as a measured trait delivers 4 X the economic return than any other production trait, and that synchronisation is a vital herd management tool for beef producers, providing great gains in calving intervals and genetic merit. Call us if you require the ABS Australia commercial FTAI booklet.

This directory provides a double page update on ABS Australia's HCR program, which has collected even more data over the past 12 months. We are now able to classify proven HCR sires into Silver, Gold and Platinum

tiers. Please refer to page 4 and 5 for more information.

Please review the semen price list on pages 28 & 29. Commercial producers should be delighted by the list of commercially available sires that we offer at ABS. From time to time updates and specials will be available via the ABS Australia website, social media pages and email. With increased global demand and sales, the inventory level of some bulls may result in low stock levels or being unavailable, so please consider your bull requirements and place your orders at your earliest convenience.

A final note, with the ever changing landscape and threat to Australian agriculture and biosecurity, please see an updated TLG visitor policy below.

For further beef assistance contact Kim, Annie or myself. For producers in WA or specific Wagyu needs contact Bill.

**Fletch Kelly**

ABS Australia Beef Team

### TLG VISITATION POLICY

Dear clients,

With the increased biosecurity threat stemming from a number of diseases (such as Foot & Mouth Disease), we have been asked to temporarily suspend customer visits to Total Livestock Genetics (TLG) until further notice. The health, safety and wellbeing of all animals, in addition to the continued operational capacity of collection centres such as TLG are absolutely vital to our industry. We thank clients for their understanding and will advise accordingly should this suspension be lifted.

#### SEMEN DISCLAIMER

Genus Australia, trading as ABS Australia, its employees and agents cannot guarantee the conception rate or productivity to be obtained in connection with the use of its products or recommended techniques, therefore it makes no warranty of any kind whatever, expressed or implied, which extend beyond the description of the products hereon and all warranties of merchant ability and fitness for a particular purpose are hereby disclaimed.

: More Info

## Key Benefits:

- + Improved efficiency and profitability
- + Shortened calving season while maintaining a high conception rate
- + Inseminate your cows and heifers on the same day
- + Increase your bottom line
- + Reduce postpartum anoestrus
- + Increase longevity of breeding females

“ The proof is in the pudding! The HCR bulls do produce some surprisingly high conception rates. As an AI contractor I inseminated 80 heifers for a client with Landfall Keystone last Spring.

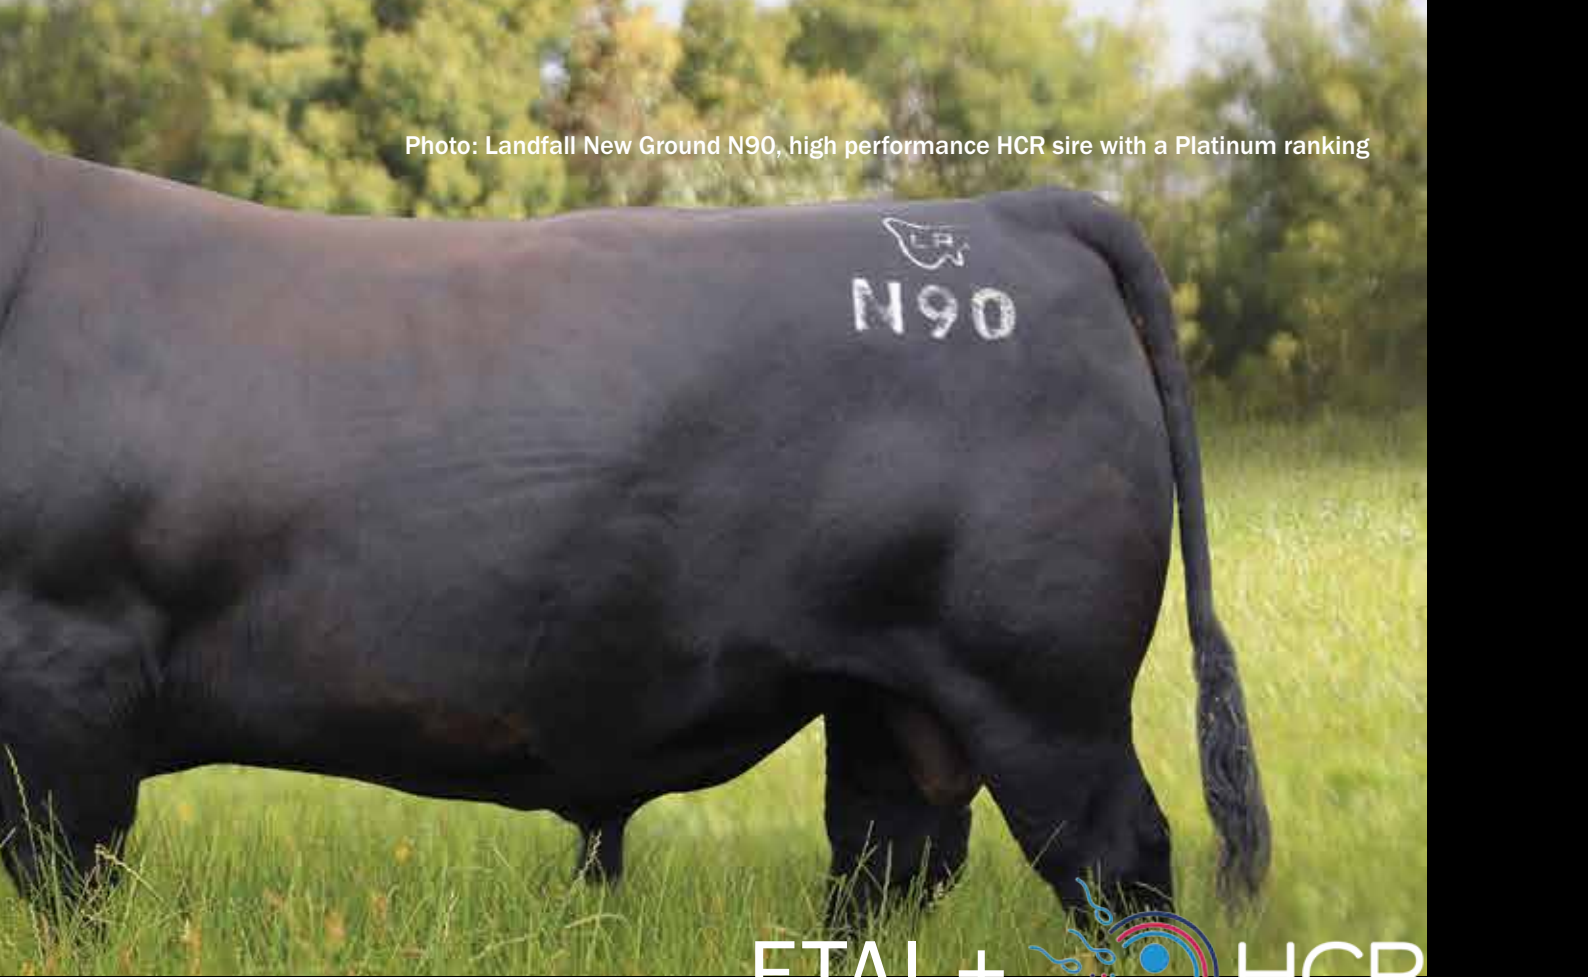

When I arrived to AI the heifers I was immediately concerned the heifers were lighter than ideal and they lacked body condition. My immediate thoughts were that we would be lucky to achieve a result much better than 40%. The result achieved was 63%!

**James Sutton, Sutton Breeding Services**

”

FTAI +  HCR

# Simplify Mating, Shorten Calving, Increase Profitability

ABS Australia is dedicated to combining profitable solutions and world-leading genetics to create a more profitable and sustainable future for the beef farmers of Australia.

Fixed Time AI (FTAI) is a cost-effective reproductive technology that, when combined with our High Conception Rate (HCR) program, allows producers to take control of their herd's fertility, tighten calving seasons and significantly boost profitability.

## HCR Sire Rankings Explained:

Young high ranking HCR sire

Up to 3% higher conception rate.  
Minimum of 700 records

Up to 5% higher conception rate.  
Minimum of 1000 records

Up to 8% higher conception rate.  
Minimum of 15 herds with 2000+ records

**Alpine Longshot P354**  
 Alpine M242

## Quite Literally, The Real Deal

- R163's sire N542 has been exclusive to 4 herds. The N542 sons have been dynamic at all places, topping the Bowmont sale at \$20,000; Rennylea 9 sons averaged \$23,000; At Alpine R163 topped the sale at \$90,000 with a total of 12 sons of N542 averaging \$27,000
- R163's dam is by the purchased Te Mania Longshot L107. This sire delivers Milk, Calving Ease, low MCW and high IMF
- The maternal grandam, M242, descends from one of Coonamble's strongest cow lines with A61.
- M242 is a full sister to two of Alpine's finest bulls, Muzza & M268
- M268 was the top price bull at the 2019 sale and produced the second top price at the 2022 sale at \$52,000, with a total of 8 sons sold in the last two sales to av \$23,750
- Real Deal, has a superb pedigree, fabulous EBVs, with great birth to growth spread, and yet moderation in mature size; add a big scrotal, big EMA, positive fats and huge +3.9 for IMF
- Wide stance; now look at the phenotype, near perfect quality structural scores and you have one of the unique bulls for the modern Angus breeding system

- Young gun from New Zealand's highly acclaimed Rissington Cattle Company offering a scintillating phenotype and data package
- Unique combination of high carcass merit, curve bender spread with outstanding phenotype and super sound structure
- His dam & grand dam were the highest scanning females in their contemporary group scanning 8.03 & 7.8 for IMF
- Sovereign was sold as a yearling and proven in a commercial herd, seeing his genomics further improve his unique data set which has seen him get used heavily in elite ET program at Rissington
- Leachman Global Multibreed analysis of over 1.4 million animals, Sovereign sits top 1% for \$Profit and currently the number 1 bull for Fertility
- Maternal brother Rissington Paradox R376 used at Rissington and commercially in NZ in 2021 and semen exported to Australia
- Admire the phenomenal data spread that this sire offers- top 3% CED, super low BW, top 10% growth, top 2% carcass weight and an astonishing +4.9IMF!

## Discovering Solid Ground

- Record \$75,000 Tasmanian bull, and visual standout of the September 2018 Landfall yearling bulls
- Long, deep bodied bull possessing fabulous sire appeal and an awe-inspiring presence
- New Ground's exquisite combination of phenotype and EBVs makes him a must-use sire for any seedstock or commercial operation
- New Ground sits comfortably in the top 15% for foot angle
- Ground-breaking maternal pedigree featuring the who's who of Angus sires; Reality, Emperor, Infinity, Reagan, 036, Scotchcap, M032
- Of the 10 dams in his maternal pedigree, 9 have been donors, the other one had 9 natural calves!
- Admire N90's incredible EBV profile including 4.0% BW, huge growth, staggering +7.0 scrotal, +35 docility, positive fat and +3.1 IMF! A now proven bull
- 2021 Landfall sale; 41 New Ground sons averaged an insane \$16,000! (sale average \$11,583)

# RESILIENT

(AMF,CAF,DDF,NHF,DWF,MAF,MHF,OHF,OSF,RGF)

Sitz Resilient 10208 | 271AN4314 | Owned by: ABS Australia

### Strong, Tough, Hardy

- The most exciting Stellar son to be offered in Australia to date
- Top 1% foot angle; top 17% Claw
- On USA EPD Resilient is at top 30% for Marbling
- The record-setting \$165,000 bull of the Fall 2019 Sitz Angus Ranch sale
- Resilient has been described by all who have seen him as wide based, deep bodied and free moving
- As his dam's first calf, Resilient had a weaning ratio of 121 and an adjusted yearling weight of 1,530 pounds (695kg) for a yearling ratio of 117
- The dam of Sitz Resilient is a daughter of the now-deceased Pathfinder sire Sitz Top Game 561X whose Pathfinder dam is considered the greatest daughter of Onward produced in the Sitz program. After a great donor career for Sitz Angus and Express she sold half interest for \$200,000
- First calves in Australia are standouts for thickness, style and temperament!

## Stellar Performance and Design

- THE go-to USA bull to add extreme mass, power, thickness and faultless structure to your breeding program
- Boasting top 1% US EPD and top 4% Australian EBV structural data, Stellar is unquestionably one of the safest structural bulls available to the Australian cattle sector
- Combine Stellar's structural EBVs with big calving ease, low birth weight, super growth data and big EMA & Fats combination, and he becomes unsurpassed in the Angus breed
- Sons are arguably THE most sought after progeny throughout the US at present
- Super thick topped and deep bodied, Stellar only improved his powerhouse phenotype while breeding cows as a yearling
- You cannot help but admire Stellar's progeny, both in Australia and the USA
- Sexcel® sexed female product available
- Stellar sons are flying in the sale rings already in Australia and in demand for their extreme mass and impeccable structure

Couch Pastoral Queenslander Progeny

Couch Pastoral Queenslander Progeny

## The Heart of Australia

- The absolute “wow factor”, must use young sire to enter last year’s ABS line-up!
- From same dam as Clunie Range Legend, Queenslander inherits so much of this incredible phenotype and power - it is uncanny!
- The poise, balance, docility and overall look of Queenslander makes him a must-have sire option for any breeding program
- Moderate birth weight, huge growth combined with fantastic foot structure EBVs
- Foot quality prince. Queenslander sits in the top 2% for foot angle and top 12% for claw shape
- Awesome field reports of young Queenslander progeny! Clients are absolutely raving about the thickness and presence that these Queenslanders express!
- Watch out for Queenslander progeny entering the sale rings over the coming 12 - 18 months!

**Merridale Gaffa G4**  
Vermont Dream E096  
Millah Murrah Jupiter J194  
**Banquet Kite L131**  
Banquet Kite J428

### I'm Loving It

- Like every great Quarter Pounder – he's full of meat!
- \$60,000 sale topper at Banquet 2021 autumn sale
- Awesome muscle expression, weight for age, deep bodied with a tonne of power
- Balanced, versatile EBV set featuring added growth and impressive top 3% scrotal
- Pedigree loaded with great Banquet ancestry
- Q252's dam has calved each year with a 366-day spread and g-dam J248 has calves every spring!
- Quarter Pounder's pedigree is solid gold, four crosses of the Kiwi Dream M41+92, matriarch to many great Angus cattle including being gdam of Dream Y301 and four crosses of Hingaia 469
- First calves at Millah Murrah are seriously thick!!

## Maintain Your Herd's Dignity!

- The most eagerly anticipated young US arrival to Australia in many years, featuring a pedigree absolutely packed with Sitz Angus gold!
- Dignity combines two of the most prolific bloodlines at Sitz Angus in recent years!
- A son of the well renowned Sitz Resilient 10208, and paternal grandson to the highly acclaimed Sitz Stellar 726D who has featured prominently in programs right throughout Australia over recent years
- If Dignity's paternal pedigree didn't impress enough, take a look at the maternal side!
- Dignity is the maternal brother to the record US \$235,000 Sitz Incentive 704H, out of the famous Sitz Barbaramere Nell 53F, the US \$130,000 top selling female of the 2021 Sitz Angus sale
- Admire the phenomenal balance, strength of spine and head carriage of this young gun
- Top 1% for US structural EPDs, carrying on from the outstanding structural integrity offered by Sitz Stellar 726D

## Dynamic Data and Dynamic Phenotype

- A dynamic physical presence that starts with impressive muscle, base width and internal dimension wrapped up in an attractive, eye-catching package that looks good from all angles
- As sound, comfortable and confident on the move as any 1,400 lb. yearling we've ever seen with added depth of heel and near perfect foot shape
- No other bull in the breed today with his level of CED and BW offers higher EPDs for Weaning and Yearling growth
- His grandam is described by Jim Brinkley as the best cow he's ever owned
- His dam is also a perfect footed young cow with a 340 day calving interval and she produced the top IMF scanning bull of the 2019 Brinkley calf crop

## The Keystone of Your Success

- Proven calving ease sire, with progeny that perform and exceptional daughters
- Beautifully balanced bull with superb feet and legs on visual appraisal
- Docile, long, deep bodied with great head and neck carriage
- 106 herds with 2322 progeny analysed and 550 genomic tested
- Top 10% for 7 traits and indexes
- 20 sons at the 2019 Landfall sale averaged a fabulous \$11,500
- Dam family line features g-dam Archer X9 with two stud sons, and flows back to Joyle C22 and Archer C170, two iconic cows of the Landfall herd
- The true mark of Keystone is the fabulous females he has produced around Australia

# MAN IN BLACK

(AMF-CAF-D2F-DDF-M1F-NHF-OHF-OSF-RDF)

LAR Man In Black | 29AN2205 | Owned by: Larson Angus Ranch, KS; ABS Global, Inc., WI

## No Aliens Here

- A man amongst boys from a young age
- Combines tremendous base width and muscle with exceptional substance, rib shape and length of body
- Described by many astute cattlemen as the most powerful Angus bull they've seen in recent years
- Impressive individual performer with a 791 WW (125 ratio), 1,489 YW (118 ratio), 5.54 IMF (107 ratio) and 15.0 RE (113 ratio)
- Unique data and imposing phenotype make for as stout a power bull package as we know how to make

## True Maternal Direction

- Eye-catching style with awesome length of spine, top line strength and hindquarter thickness
- True North is a deep bodied powerhouse who moves faultlessly and is as smooth as a cat
- Appreciate the ultra-low birth weight, calving ease and overall EBV balance that the bull offers
- Strong headed with immense presence and sire appeal
- True North descends from the famous Coleman Charlo 0256 x S A V Blackcap May 4136 flush
- Awesome reports on young progeny across Australia – deep, thick and square made!

# FIREBALL

(AMF,CAF,DDF,NHF,DWF,MAF,MHF,OHF,OSF)

GB Fireball 672 | 29AN2099 | Owned by: Grand Bayou Farms, LA; Goode Angus, TX; ABS Global, Inc., WI

## Sure Fire Winner

- A unique curve bender producing awesome progeny. Look out for Fireball sons this spring selling season
- Super impressive calving ease, low birth and BIG growth coupled with impressive scrotal EBVs
- Admire Fireball's carcass attributes – a staggering 12.7 EMA and 4.4 IMF combination with impressive +1.7 RBY EBVs
- Phenotypically, Fireball impresses with a tight sheath, good shaped scrotal, well shaped feet, good head carriage, strong top, immaculate tail placement and no white
- Calving reports on heifers are fantastic, weaners are receiving rave reviews
- Awesome feedback from stud clients, including messages:

"Fireballs are the most consistent calf crop I've had in 30 years. They are THICK!"  
 "We use Fireball to add IMF but the added bonus is their thickness, strength of spine and outlook."

## We've Made It

- Exciting Accomplishment son from the 2021 Sitz spring sale
- Accomplishment sons were among the most in-demand sons at the recent Sitz Angus sale for their consistent type and performance
- His 11-year old Pathfinder dam has maintained a 363 day calving interval
- Everelda 0179 also managed a nursing ratio 104 with average progeny yearling ratio of 104
- Milestone offers a superb EBV growth profile top 1%
- Appreciate his rare high scrotal, milk and carcass weight combination
- Stout bull with excellent sire outlook/appeal

## Clarity For Miles

- Tremendous side-profile exhibiting great extension throughout and very clean fronted
- Deep bodied, attractive bull exhibiting good base width from behind for a calving ease sire, with a little added length of spine
- Very good feet; a sound and practical bull that will make an impact

## Building A Maternal Product

- Total outcross pedigree that combines three legendary Angus sires who were famous for their ability to make fantastic females with impeccable udders, great femininity and exceptional dispositions
- His famous great grandam Amy B121 comes from the same cow family that you will find in the impressive female maker FUSION's pedigree
- Proven calving ease with exceptional maternal traits and a top 1% Herd Builder Index
- He is attractive patterned, dark cherry red, big soft bodied and as sound as a cat
- If you're in the business to make stylish attractive cows, look no further, the maternal ability of this sire runs multiple generations deep

# MONTICELLO

FTJ Monticello 1806 (P) | 29CH0223

## A National Treasure

- Monticello is quite possibly the most unique and complete Charolais bull in the breed
- His transcendent EBV package ranks 9 of his 18 traits in the top 10% of the breed and 5 of 18 in the top 5%
- Backed by the famous Shandy cow family that produced the Hall of Fame female sire LT Unlimited 9108
- Destined to replace his revolutionary sire, Monticello offers improved EPDs, nicer phenotype and a stronger cow family, while maintaining exceptional feet as well as all the other functional traits that have made his sire so popular

## The Record Setter

- Sold at the Injemira 2021 auction to the syndicate formed by ABS Australia for a new Australian Hereford record price of \$160,000
- Extremely rare phenotypic and EBV combination perfectly suited to any seedstock or commercial production system
- Faultless performance data - low birth, high growth, tremendous carcass and superb docility
- Phenotypically exquisite, packed with red meat and offering incredible thickness, length, bone and muscle capacity
- Ideal heifer mating option
- Top 20% of the breed for a staggering 15 traits/indexes

*"The majority of our Robert Redford calves have been born well before their due date of 2 April, coming up to 10 days early. All calves have been small born and delivered totally unassisted with ease. The outstanding structure, shape and appeal of Robert Redford is already evident in his progeny here at Rayleigh, even at such an early stage. All calves have also been with great cosmetics and soft skin."*

## Rewed Up and Ready to Go

- Super complete package of CE, growth, carcass merit and phenotype
- Possesses an attention getting phenotype. Tour groups from across the nation and across breeds all remark about how good this emerging star is
- Impressive CED, GL and low BW combination
- Admire the moderate MCW that this exciting US sire offers
- A popular homo polled option over the past two years in Australia

## ANZAC Spirit Lives On

- Matty's prominent pedigree, genotype and phenotype combination makes him a valuable option that can advance strategically focused, progressive breeding programs both from a commercial and a seedstock aspect
- This benchmarking super sire has versatile, balanced data with top end calving ease, high growth and a carcass profile suitable for producing the high-quality beef that the industry demands
- Matty sits in the top 20% for 17 traits and indexes across the Hereford breed
- Utilised in 53 herds, currently with 775 registered progeny and 306 scanned progeny
- Progeny reports are exceeding the expectations of the commercial and seedstock industry

**HEREFORD TRUE GENETICS**  
 is the program for all genetics related breed advancement activities, together with any research and development undertaken by Herefords Australia. Hereford True Genetics will provide a valuable information resource for all Hereford breed advancing initiatives.

Globally the genomics era has revolutionised the utilisation of data for rapid gain. Herefords Australia will continue to implement a strategic vision intent on leading the industry into the future.

## Built For Speed

- Phase 1 Herefords Australia Super Sire!
- This homozygous polled sire comes from the elite female Tarcombe Last Day M174 who has already produced the maternal brother P117 selling for \$15,000 at the Wodonga National Show and Sale in 2020
- McLaren Q203 offers a well-rounded phenotypic package that exudes sire appeal. His natural thickness, muscling, body depth, length and skin type makes him a must-have sire option for any breeding program
- Low birth, short gestation, easy calving and carcass data to burn. Q203 offers 11 traits in the top 10% of the breed
- No 1 in his group of 28 bulls for EMA @ 105cm
- No 2 in his group of 28 bulls for IMF @ 4.0%
- Top 2% IMF & EMA combination

## It's a 50-50 Choice

- Wulfs Fifty T804F is an exceptional showcase of progressive genetics and evidence of the adaptation of Limousin cattle over these years to fit today's beef industry
- Fifty's eye catching, athletic phenotype made him the lead bull in the 2019 Wulf Cattle NWSS Grand Champion Limousin Pen
- A great choice to improve foot quality and scrotal size, this extra stout, calving ease prospect is ultra complete
- He exhibits the great phenotype often transmitted by his sire, LFLC Bank Account 701B, in a performance package which tallied a 811# 205 day weight, coupled with growth EPDs in the top 2% of the breed
- His 2 year old dam is a daughter of the globally renowned maternal sire, Wulfs Amazing Bull T341A
- Wulfs Fifty T804F has seen tremendous uptake by Australian breeders over the past 12 months

## Style, Grace, Class Breeders Comment

Heritage M213 puts together a complete package of medium maturity, deep, extremely big topped and easy keeping with an excellent data set. An excellent opportunity to get one of our very best. Used extensively in Sprys & Outback herds in Spring 2017. We believe this young sire is close to where we think the breed needs to be in the Australian beef industry to gain more market share. - **Gerald Spry**

## A Blend Of Maternal And Power

- Sired by Powerball, your lottery winner for power, body, thickness and mass while making beautiful daughters with impeccable udders
- Scanned his own 8.25% IMF, moves the needle for marbling and end product
- A moderate framed, eye appealing bull who's wide based, and super sound with a great disposition. He's thick ended with the added power of a beef bull look
- DNA tested homozygous black, homozygous polled

# NUKARA

Bonnydale Nukara (P) (AI) (B) | 29SM0493 | Owned by: St Pauls Genetics and Woonallee Simmentals

|                  |             |
|------------------|-------------|
| Reg. No.         | MBBPN073    |
| Born             | 23/01/2017  |
| Birth Weight     | 36kg        |
| Weight 365 days  | 616kg       |
| Weight 21 months | 875kg       |
| SS 12 months     | 44cm        |
| Poll             | Homo Polled |
| Colour           | Homo Black  |
| Grade            | Purebred    |
| FS               | 6           |

- Nukara was the top selling bull, at \$19,000, at the 2018 Bonnydale Sale
- Featuring impeccable structure, sound, well shaped feet with good heel depth
- His EBV should identify him as a safe CE bull. Initial calving in the field confirm this. He is a heifer's first calf
- His sire is the Australian highest selling Black Simmental bull

X **Kerrah Yamaha AY417**  
**Kerrah AW8020**

Kerrah Simmentals is New Zealand's largest, and one of the leading gene pools of fully recorded Simmentals. The breeding program is focused on selecting animals that perform in a difficult climate, in a commercially run and focused operation.

Selection is based around docility, structure and balanced breeding values; focused on producing cattle that will deliver a live calf, rapid growth and be easily finished before their second winter on pasture.

We congratulate Bill Cornell for being awarded an Honorary Life Membership with Angus Australia, which was presented in front of a packed house at the ABS Beef Conference in Tamworth earlier this year. Presented by Erica Halliday, Vice-President of Angus Australia, Bill was awarded the highest honour within the Australian Angus breed in recognition of his enormous contribution to the Angus breed both in Australia as well as internationally. On behalf of the team at ABS and the wider beef industry, congratulations Bill!

### Breeder's Comment

- Outstanding young Belted Galloway bull that shows fantastic breed character and comes with a pedigree full of champions!
- The emphasis in George's breeding has been on conformation and temperament, both of which he excels on
- His extended pedigree includes all the best and most successful bloodlines used in the Barwise herd to date

### The Carcass King

- Bond 007 is the Wagyu Carcass Combination King
- Ranks for sires as first for Marbling, second for EMA, first for Marbling Fineness
- The best Wagyu bull for his combination of EMA, Marbling and Marbling Fineness
- 19 herds, 319 progeny analyzed with 49 scanned
- Emulates his famous legendary sire, Mayura Itoshigenami Jnr, whose semen sold to a record \$72,000 a straw at the Mayura sale
- Licensed to marble and potential to deliver the best carcass results in the breed
- Export semen now available to all parts of the world including EU

## A New Era in Sexed Genetics

- **A breakthrough in sexing technology**
- **Our most advanced genetic line up**
- **Increased relative conception rate\***

Sexcel™ sexed genetics, produced using 21st century technology and ABS' best genetics, deliver more, high-value pregnancies in your herd.

# Benefits of Fixed Time AI (FTAI)

FTAI allows producers to increase the entire profitability of their system through easier calving,

shortened breeding and calving seasons, and improved fertility, all while reducing the

incidence of postpartum anoestrus and creating a more uniform line of calves.

## + Superior Genetics, Superior Profit

From fertility and structural traits through to carcass merit, high accuracy genomic and proven sires are perfect for increasing your bottom line.

In a 300-cow herd that is \$45,000 added to your bottom line.

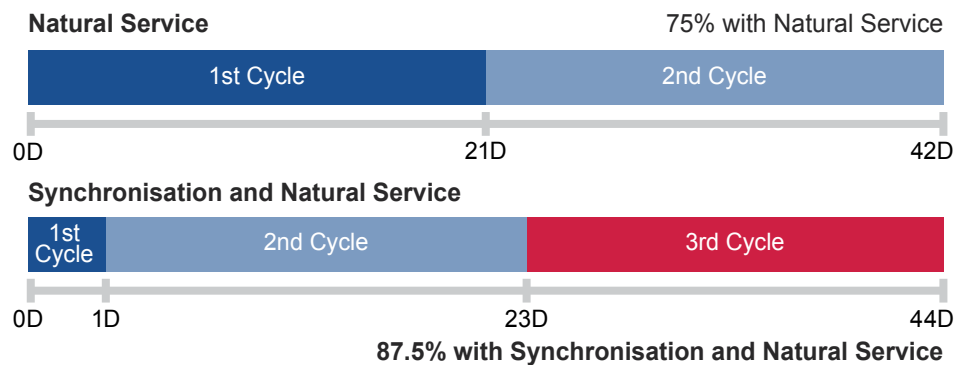

This makes your joining decisions more effective as well as improves your ability to accurately select the correct sires for your herd, improving your overall profitability.

Benchmarked herds using FTAI each year are returning \$150 per cow more than those not using FTAI.

Joining daughters of high accuracy sires to another high accuracy sire increases the overall accuracy of EBVs within the herd.

## + Increase Pregnancies

Synchronising your herd results in an extra oestrous cycle for your breeding females over a standard 42-44 day breeding season. Effectively, 50% of your females could conceive on day one of your breeding program.

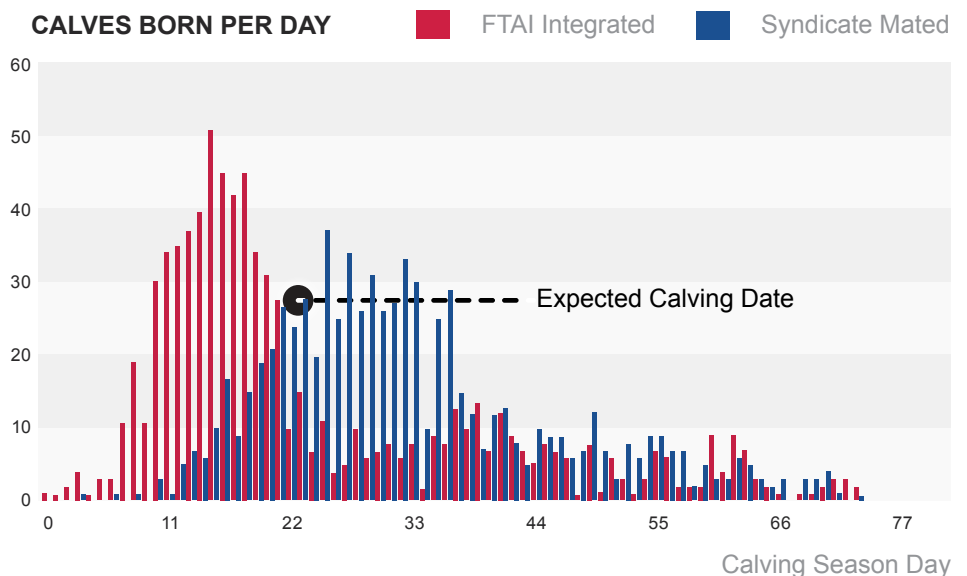

## + Shorten Your Calving Season

On average, a standard FTAI program will reduce your herd's average calving date by 9 days, now referred to as "the 9 day effect" for its sustained benefit to your herd.

- Assuming every day equates to 1kg extra live weight, at weaning time, animals would average an extra 9 kg live weight
- At \$5/kg calves are worth an average of \$45 more at weaning time, solely due to a condensed calving interval.

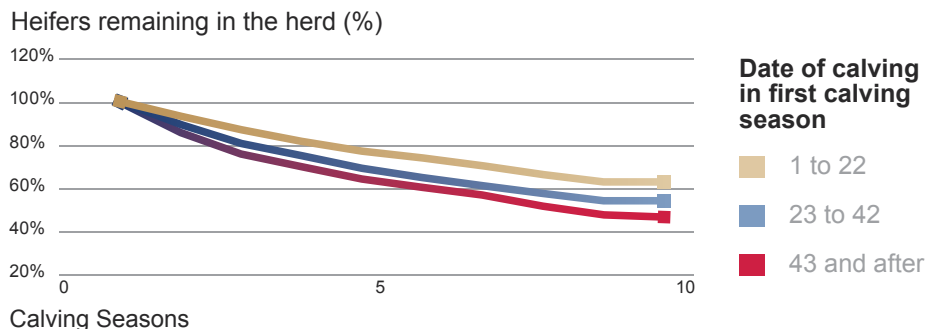

Natural service will leave 43% of animals less than 50 days postpartum leading into the next breeding season. Use FTAI to reduce this "at-risk" group to only 7%!

## + Increase Longevity of Breeding Females

FTAI results in more maiden heifers calving down in the first 21-day window of a calving season, making them 13% more likely to remain in the herd as mature age cows compared to those who have their first calf after the 42-day mark of their maiden calving season.

## + Reduce Postpartum Anoestrous

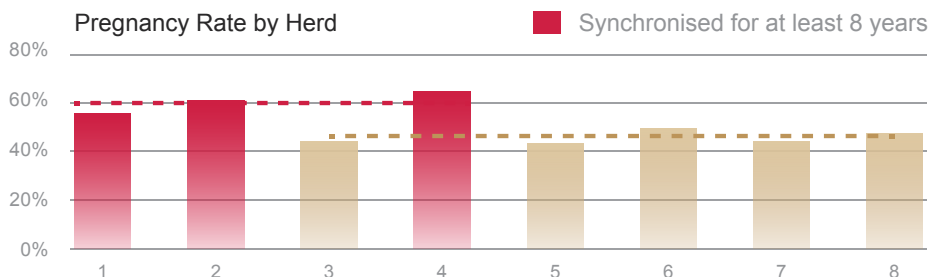

FTAI increases the average postpartum interval of your breeding females by getting them in calf earlier in the breeding season, allowing greater time

for recovery and a chance to begin cycling before the next breeding period. Using exogenous hormones through FTAI will also help animals in

postpartum anoestrous to begin cycling again, increasing the number of females available to breed on day one of the breeding season.

## + Improve Response to Synchronisation Over Time

A study headed by Dr Cliff Lamb of the North Florida Research and Education Center has demonstrated an increase in pregnancy rates among herds (shown in red) that had been previously exposed to synchronisation for at least 8 years.

Get your calves dropping earlier and boost uniformity - create your own 9-day effect.

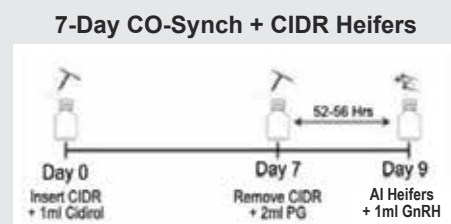

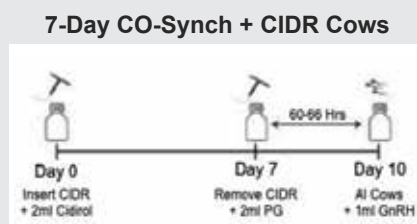

You will join larger, healthier and more mature heifers. They will get in calf earlier, calve earlier, and be

ready to conceive on day one of next year's mating program, increasing your pregnancy rates year after year.

## Selecting a Protocol For Your Herd

The most commonly used protocol for beef FTAI programs is the 7-day CO-Synch + CIDR for both cows and heifers. These are essentially the same protocol, apart from a larger time interval between CIDR removal + PG and insemination of cows (60-66hr) compared to heifers (52-56hr), as shown here.

| Hormone            | Common Name         |
|--------------------|---------------------|
| Oestradiol         | Bomeron, Cidirol    |
| Progesterone       | CIDR Eazi-Breed     |
| Prostaglandin (PG) | Ovuprost, Estrumate |
| GnRH               | Ovurelin, Gonabreed |
